Dear Business Owner/Operator:

The Santa Fe Springs Fire Department, a Certified Unified Program Agency, recently conducted an audit of records for non-permitted Hazardous Waste Generator (HWG) facilities. Based upon data provided by the Department of Toxic Substances Control (DTSC), your business is registered as a Hazardous Waste Generator. Unfortunately your facility has no HWG permit with our department. Failure to maintain a HWG permit is a violation of City Ordinance 97 and may result in actions being taken by the Fire Department. If you have a HWG permit with the Fire Department, please fax or mail a copy of it to the address or fax number listed above so the information may be verified. To obtain a permit, please complete the enclosed forms and return them by September 30, 2001. Any questions you have regarding this matter should be directed to Steve Koester, Environmental Protection Specialist, at (562) 944-9714 ext. 137. Your assistance on this issue is greatly appreciated. Thank you in advance for your cooperation.

Sincerely,

A handwritten signature in dark ink, reading "Neal Welland".
